POWERS™
A WATTS Brand

Thermostatic mixing valves (TMVs) aren't the most efficient way to temper your building's water.

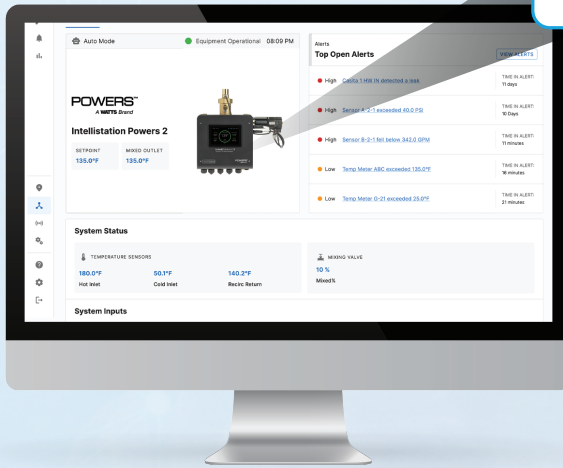

Other digital mixing solutions only solve part of the problem.

Now, you can fight scalding, waterborne pathogens, and inconsistent temperatures with IntelliStation 2, the digital mixing solution unsafe water fears most.

works with **nexa**

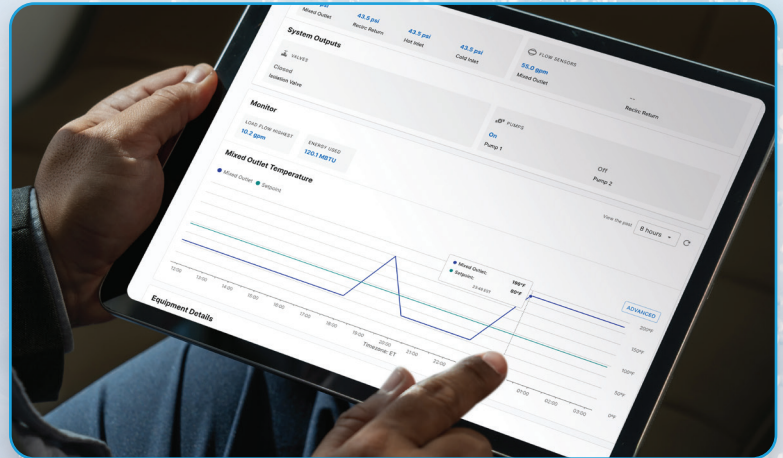

Unprecedented Insight, Precise Control, and Easier than Ever to Use

IntelliStation 2 performance data can be viewed from anywhere and tracked over time for trends that can help optimize your system and anticipate issues. This next generation mixing valve can be monitored and controlled remotely via Nexa or your BMS, and doesn't require factory preprogramming, a laptop, or special software when commissioning or making adjustments.

How it Works

- 1 Specify, recommend, or purchase IntelliStation 2
- 2 Enjoy easy, non-disruptive install and reliable water tempering backed by a 5-year warranty*
- 3 Use the unprecedented performance insight Nexa provides to optimize your system

Access the Nexa platform to unlock your equipment's potential

*18-month standard warranty can be extended, free-of-charge, to 5-years when you register your equipment to Nexa.
